Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 01 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Staying warm for many but rain and thundery showers developing.

This Evening and Tonight:
Misty with low cloud for east Scotland, cool here and in northeast England. Elsewhere clear periods and staying warm in places overnight. Increasing cloud arriving from the southwest later with thundery showers likely for southwest England and south Wales.

Wednesday:
Very warm with sunshine for most. Eastern coasts cooler with an onshore breeze and low cloud in the northeast. Cloudier in the south with thunderstorms possible, these moving north later.

Outlook for Thursday to Saturday:
Nationwide temperatures lowering a little, although remaining hot in the southeast on Thursday. A lot of fine and dry weather, although a few thundery showers remain possible.
